🌐 [jflotzinger](https://www.jflotzinger.com)

Scientific interests

- Structural inspection
- Computer vision
- Deep learning
- Sensor fusion
- Building materials

Education

2019. Masters in civil engineering

OTH Regensburg
Regensburg – Germany

2016. Bachelor in civil engineering

OTH Regensburg
Regensburg – Germany

2012. Abitur

Donau-Gymnasium Kelheim
Kelheim – Germany

Current situation

Since January 2025. **Head of Product**

@[dacl.ai](#). We automate building inspections and building management.

Experience

July 2020 – December 2025. **PhD candidate**

Institute for Structural Engineering, University of the Bundeswehr Munich. Lectures: Bridge construction, Fire protection; Research: Visual damage recognition on bridges

Last publications

Johannes Flotzinger, et al. **(2025)** synth-dacl: Does Synthetic Defect Data Enhance Segmentation Accuracy and Robustness for Real-World Bridge Inspections? In DAGM German Conference on Pattern Recognition (GCPR).
doi: [10.48550/arXiv.2506.14255](https://doi.org/10.48550/arXiv.2506.14255)

Johannes Flotzinger, Philipp J. Rösch, Thomas Braml **(2024)**
dacl10k: Benchmark for Semantic Bridge Damage Segmentation
Proceedings of the IEEE/CVF Winter Conference on Applications of Computer Vision (WACV).
doi: [10.1109/WACV57701.2024.00843](https://doi.org/10.1109/WACV57701.2024.00843)

Code and websites

[dacl-challenge](#) : Challenge for damage recognition enthusiasts (researchers and practitioners) for comparing results on dacl10k.

[bikit](#) : Python-API simplifying access to datasets and pretrained models in the bridge inspection domain.
